The Specialised Skin Collection

The Beyond Botox Facial

75 min €135.00

The Beyond Botox Facial which is a combination of the 'Jet Peel' and the New LIFE 'Micro Current', which is used to tone and strengthen the facial muscles. This facial refines lines and creases, the skin then appears tighter, firmer and more vibrant and the Jet Peel also offers oxygen therapy, the ultimate in hydration therapy. This combination of two excellent treatments promotes the acceleration of cell growth with its passage through the layers, to give a finer, younger looking outer layer of skin. See the effects in just 30 minutes. It will improve the appearance of your skin instantly. Revealing skin that is firmer, radiant and visibly lifted. Lines and wrinkles are visibly reduced. This is truly a miracle in modern technology. Skin is left well toned, smoother and radiant.

This is a highly effective treatment.

Carboxy Facial

60 min €140.00

The Carboxy treatment uses the combination of cold with high pressure which when applied on the dermis causes an intense penetration of skin actives and an exponential increase of their effects. A series is recommended.
